FOSSASIA
Open Source Contributor

EXPERIENCE

BLINKIT | Software Engineer 2
Jul 2021 - Present
- Developed the Bistro app, implementing key features such as product customization, re-ordering, and menu flows.
- Contributed to the complete redesign and implementation of the homepage for the Blinkit consumer Android app, collaborating closely with the team to deliver an improved user experience.
- Worked with cross-functional teams to improve customer ordering, product discovery, and brand visibility, increasing AOV and ad revenue.
- Enhanced the post-order experience in the Blinkit app by integrating the Zomato Chat SDK, designing a feedback flow, and migrating post-order functionalities to native Android.
- Actively participated in code reviews and architectural discussions, contributing to maintaining high-quality code and scalable designs.

CITYFLO | Android Engineering Intern
Jan 2021 - Jun 2021
- Worked on the Cityflo customer app and added several new features like Seat Selection, App Referral redesign & Modify booking.

DOUBTNUT | Android Engineering Intern
Apr 2020 - Jul 2020
- Worked on the Doubtnut app and added various features like Question asked history, Topper's study plan & client side filtering of invalid question images.

FOSSASIA CODEHEAT 2019/20 | Finalist Winner | Open Source Contributor
Sept 2019 - Feb 2020
- Among the top **10 out of ~80 contributors** who participated in the program.
- Contributed to open source projects by adding new features and solving issues. Link to my contributions(Pull Requests): Open Event Attendee App, Neurolab Android, SUSI Android
